

# Canada

## SPIRITWOOD, SASKATCHEWAN AND THE GREATER TORONTO AREA

### REASON FOR PLANTING

### PROJECT HIGHLIGHTS:

- May - June 2018 planting timeline
- 30,000 trees funded by Enterprise
- 2018 is the 13th year of tree planting in Canada
- More than 900,000 trees planted in Canada through our partnership

This year's tree planting efforts in Canada will focus on two areas. In Saskatchewan, the project area will be reforested to protect and manage areas of natural diversity. Efforts in the Greater Toronto Area will focus on connecting and building upon existing forest land to ensure contiguous tree cover for wildlife and migration.
