

PROJECT HIGHLIGHTS

Fall–Winter

2019 planting timeline

30,000

trees funded by Enterprise

4th year

planting trees in France

150,000

total trees planted in France through our partnership

PROJECT PROFILE: 2019

Landes Forest, France

REASON FOR PLANTING

Continuing to build off momentum of the three years of restoration work, Enterprise is again supporting one of the largest forests in Western Europe. The project will further rehabilitate the area damaged by the 2009 Klaus storm and reinforce species diversity by planting deciduous and evergreen trees.

Restoring forest lands significantly impacted by storm damage

Providing flood and erosion control

Reestablishing a forest that supports the local economy
