A service of Enterprise Rent-A-Car, Commute with Enterprise offers one of the most sustainable transportation options and cost-effective commuting solutions available today.

Commute with Enterprise's vanpooling service is supported by the extensive Enterprise Rent-A-Car neighborhood network, which delivers an unmatched level of fleet flexibility and local service. And by providing an industry-leading selection of vehicles – including crossovers, SUVs, minivans and large passenger vans – Commute with Enterprise offers customizable programs that help communities overcome transportation challenges, both long- and short-term.

Genuine ridesharing programs typically provide strategic public-private partnerships as well as flexible commuting options that benefit consumers and businesses alike. Vanpooling also reduces annual transportation expenses by using volunteer drivers – which is much more cost-efficient than hiring paid drivers.

Vanpool participants determine driving responsibilities and routing among themselves – unlike ride-hailing apps that require you to request, wait and pay for each use. Enterprise also offers a free ride-matching program to help find co-workers with similar hours and routes.

Commute with Enterprise – one of the largest vanpool operations in the nation – manages programs that address both local and national needs by reducing traffic congestion, parking real estate and carbon emissions while providing commuters with a smarter, better way to get to work. In fact, businesses that offer Commute with Enterprise's vanpool programs as an added benefit for employees not only gain a competitive differentiator for recruiting but also a way to improve their corporate sustainability profile.

CORPORATE RESPONSIBILITY

- Commute with Enterprise eliminates more than 1.4 billion commuter miles driven each year while taking more than 64,500 individual cars off the road, which in turn simultaneously eradicates the need for 64,500 parking spaces
- Additionally, more than 1.1 billion pounds of carbon emissions are reduced by Commute with Enterprise customers annually

FAST FACTS

- For an average commute of 100 miles per day, ridesharing can save individuals up to \$10,000 per year by reducing cost of tolls, gas, vehicle maintenance and depreciation
- Volunteer drivers provide additional cost efficiencies
- More than \$770 million in total cost savings each year
- Commuter vanpools are safest mode of public transportation when compared to motor bus, light rail, heavy rail, commuter rail and demand response services (according to 2014 U.S. Department of Transportation Bureau of Transportation Statistics data)

MILESTONES

- vRide (formerly VPSI Inc.) founded in 1977
- Commute with Enterprise founded in 1994
- Partnered with Community Transportation Association of America in 2015 to provide organizations with resources to start up or expand vanpool programs of any size
- vRide acquired by Enterprise Holdings in 2016
- Two of Enterprise's vRide partners recognized in 2016 by Association for Commuter Transportation

FOUNDING VALUES

These values have served as Enterprise's foundation for growth and success for more than six decades. Today, this simple, yet powerful set of beliefs is more critical than ever to Enterprise's continued success:

- Our brands are the most valuable things we own.
- Personal honesty and integrity are the foundation of our success.
- Customer service is our way of life.
- Our company is a fun and friendly place, where teamwork rules.
- We work hard ... and we reward hard work.
- Great things happen when we listen ... to our customers and to each other.
- We strengthen our communities, one neighborhood at a time.
- Our doors are open®.
