Owned by the Taylor family of St. Louis, Enterprise Fleet Management operates a network of more than 50 fully staffed offices, which manages a fleet of more than 630,000 vehicles in the U.S. and Canada. The business provides full-service management for companies, government agencies and organizations operating medium-sized fleets of 20 or more vehicles, as well as those seeking an alternative to employee reimbursement programs. Combined, these businesses, which include car rental and carsharing services, truck rental, corporate fleet management, retail car sales and a vehicle-subscription service, accounted for nearly $22.5 billion in revenue and operated nearly 1.7 million vehicles throughout the world in fiscal year 2020.

Enterprise Fleet Management’s recent investments in information technology solutions to better serve its customers include:

- The development of a customer login website, which provides advanced insight into fleet performance and key metrics, enabling customers to lower their total cost of ownership.
- The deployment of new Microsoft Surface Pro 3 devices to its entire North American sales team.
- The development of a Web-based Fleet Planning Toolkit that allows the Enterprise sales team to access multiple data for a customer’s entire fleet on the new Surface Pro 3 devices in real-time.
- A partnership with Auto Integrate, a web-based repair and maintenance authorization tool, which is accessible to Enterprise Fleet Management’s 90,000 auto maintenance and repair shop partners and is currently used by nearly 40,000 preferred vendors.
