

PROJECT HIGHLIGHTS

Jun-Aug

2021 planting timeline

40,000

trees funded by Enterprise
this year

10th year

planting in the state of Colorado

Nearly 500,000

trees planted in Colorado
through our partnership

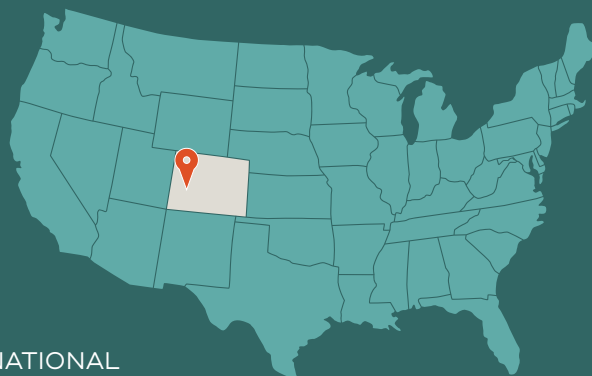

PROJECT PROFILE: 2021

Colorado National Forests

REASON FOR PLANTING

High Mesa, sitting at approximately 11,000 feet, is home to a spruce-fir forest and stunning alpine meadows and fens. The regional spruce beetle epidemic has taken its toll on the mature spruce trees in the area and continues to lead to more mature tree mortality each year. Tree planting will help to create a young, resilient stand of trees to face future challenges.
