2021 planting timeline

80,000

trees funded by Enterprise
this year

3rd year

planting in the state of
South Carolina

Over 200,000

trees planted in STATE
through our partnership

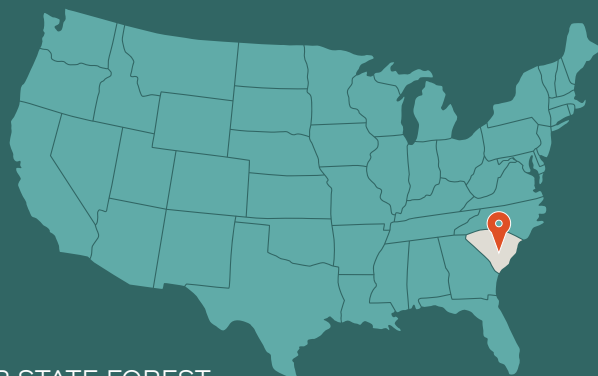

PROJECT PROFILE: 2021

Manchester State Forest, South Carolina

REASON FOR PLANTING

South Carolina's Manchester State Forest is an actively managed forest that offers opportunities for outdoor recreation such as hiking, biking, fishing, and hunting. It also provides diverse habitat for area wildlife. For the forest to remain healthy, multi-generational tree cover is imperative. This planting project will ensure that new growth combines with the old growth for a sustainable and productive tree canopy.
