

PROJECT HIGHLIGHTS

Spring & Fall

2021 planting timeline

100,000

trees funded by Enterprise
this year

3rd year

planting in the state of Georgia

Over 300,000

trees planted in Georgia
through our partnership

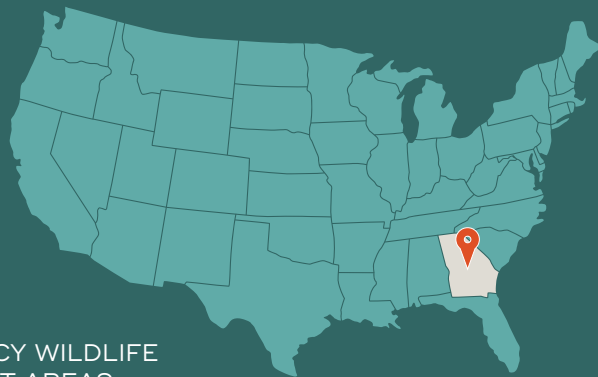

PROJECT PROFILE: 2021

The Nature Conservancy Wildlife Management Areas, Georgia

REASON FOR PLANTING

The loss of longleaf and shortleaf pine trees has led to a decline in local wildlife and decline in the quality of area watersheds. Replanting these trees will help restore the natural ecosystem and reestablish critical habitat for wildlife including the gopher tortoise, white-tail deer, fox squirrel, and eastern diamondback rattlesnake.
